Comprehensive Guide to binance

Take the Stripe news. It turned out that “Tempo,” a payments-focused layer 1, is being built in partnership with Paradigm. If you’ve traded long enough, you know Stripe isn’t doing this for no reason. This is a settlement-layer play, with control over the base layer, the fees and uptime.

On Monday, Musk shared a post saying that Floki, his pet Shiba Inu dog, was “back on the job” as the CEO of X. The post was accompanied by an AI-generated video of his dog sitting at a desk, donning a tie and glasses, saying “Numbers, numbers, numbers, numbers? Is this working? Yay.”

“If you want to say that cryptocurrency is this shining horse, ‘an angel from on high,’ you’re bullshitting,” he said. “You have this permissionless open platform that has a lot of different things going on that most people do not understand.”

“Dollar dominance is going to be the opportunity of Ethereum,” he said, adding this will be because of “everything becoming...tokenized.”

By using trusted custodians, a diversified network of validator partners and transparent reporting, Grayscale has established a secure and compliant way for investors to participate in staking. It has turned staking from a complex, retail-oriented process into a professional investment opportunity.

It’s worth noting that Donald Trump is estimated by Forbes to be worth \$7.1 billion, meaning that his share of these crypto profits could represent a sizable chunk of his net worth.
