Watch for spoofs, large bids or asks that vanish on contact, creating the illusion of support or resistance. Spoofing is unlawful in regulated futures markets, and similar patterns have been documented on crypto exchanges. Treat sudden order book shifts with caution.

Decentralized applications (DApps) are changing the way we interact with the Internet. Unlike traditional applications, DApps run on blockchain networks, do not rely on centralized servers, and feature decentralization, openness, and immutability. Currently, DApps are mainly concentrated in games, finance, social media, and other fields, providing users with brand new experiences. Although the development of DApps still faces challenges such as user experience,

performance, and scalability, with the continuous advancement of technology, we believe that DApps will become an important part of the future Internet.

Over the past 12 years, September has been a down month for Bitcoin eight times. But the past three years, the crimson shifted to August, and September was green.
