Ethereum's bearish positioning is evident in Deribit's data, which shows "a large increase in open interest of puts since the end of August," Andrew Melville, head of research at crypto derivatives analytics platform Block Scholes, told Decrypt.

The emergence of smart contracts has brought revolutionary breakthroughs to blockchain technology. These self-executing computer programs can automatically trigger corresponding operations when preset conditions are met, without manual intervention. Smart contracts not only improve transaction efficiency but also greatly reduce trust costs. Currently, smart contracts have been widely applied in

decentralized finance (DeFi), digital identity authentication, the Internet of Things, and other fields. With the continuous development of technology, the functions of smart contracts will become more powerful, and application scenarios will become more abundant.

The ruble-pegged stablecoin reached \$500 million in market cap in late September, overtaking major non-US dollar rivals such as Europe's euro-pegged EURC, issued by Circle.

Similarly, the Coinbase app now ranks 29th in the US App Store within the finance category, a significant drop from its third-place position in January, according to data from The Block.

"While differentiating between this content is a technical challenge for search engines, we're making ongoing improvements to better surface legitimate content and downrank explicit fake content," Google said. In regards to CSAM, the Google spokesperson said the company takes this subject very seriously and has dedicated an entire team specially to combat this illegal content.

Nasdaq-listed fintech firm Zeta Network Group has entered into a \$231 million private placement funded in Bitcoin or SolvBTC, a wrapped Bitcoin-backed token issued by Solv Protocol.
