The move resembles those made by Northern European countries like Norway or Sweden, Nic Puckrin, crypto analyst and co-founder of The Coin Bureau, told Decrypt. While those were not explicit bans, he said, "the removal of previous advantages essentially made mining unviable."

Researchers say bitcoinlib is a "widely used open-source library" that allows crypto wallets to be created and managed—attracting more than one million downloads since its launch.

Traders who wait for confirmation look for above-average volume and a strong candle close to validate the move. Without those signals, the risk of a trap rises

sharply.

“Easing US-China tariff tensions and a renewed debasement trade echoed in gold’s strength are fueling fresh demand for digital assets,” Liu noted.

That provides a notable edge when compared to the line on popular sportsbook DraftKings, which lists the Cowboys at +320 or around a 24% chance of knocking off the Eagles.

Google's newly released AI-powered search results are garnering lots of attention—for the wrong reasons. After the tech behemoth announced a host of new AI-powered tools last week as part of a new “Gemini Era,” its trademark web search results changed significantly, with natural language answers to questions displayed above websites. “In the past year, we’ve answered billions of queries as part of the search-generated experience,” Google CEO Sundar Pichai told the audience. “People are using it...
