Miners typically rely on the price of Bitcoin to go up to cover costs but continued volatility for the asset has spurred, some large miners to branch into high-powered computing.

The central bank is currently engaged in quantitative tightening, with no clear reversal plans to switch to QE until it reaches its target inflation rate of 2%.

Meanwhile, Turkish regulators have responded to growing adoption of crypto by expanding their watchdog powers. And the rising adoption of stablecoins in Asia

has been at the center of a political stalemate in India.
