BitMine is the world's largest Ether treasury company with a stash of more than 3 million ETH, or 2.5% of the entire supply, worth \$11.7 billion. It is already halfway toward its target of 5% and has only started accumulating the asset in early July, when ETH was hovering around the \$2,500 level.

Still, compared to past cycles, BTC's price hasn't soared as much post its quadrennial halving: as the market cap of the biggest coin grows, it takes far more cash to move its price, and the volatility of the cryptocurrency is down since the 2024 approval of U.S. Bitcoin ETFs.

Lee, who oversees BitMine's Ethereum accumulation strategy, suggested Ethereum could rise in the same way the US dollar rose to dominance after 1971, after US President Richard Nixon made the US dollar "fully synthetic" and no longer backed by gold.

So far in 2025, paying for coffee with crypto isn't some sci-fi fantasy anymore. Plenty of chains and indie spots have already made it part of the daily grind. At Starbucks, for example, you can grab a Bitrefill gift card and cover your caramel macchiato with Ether or Bitcoin.
