With Grok 4, you can automate the first round of filtering — for example, summarizing white papers, spotting tokenomics red flags and checking liquidity. By the time you get to manual research, you are already down to the 10% of projects that actually deserve your attention.

The U.S. government is spending more money than it's taking in, while servicing enormous amounts of debt. And as the government borrows more to cover budget shortfalls, while managing its existing burden, creditors could eventually cause trouble, Dalio said.

The six candidates vying for seats on the California Public Employees' Retirement System Board of Administration expressed divided views when asked whether Bitcoin should be included in the \$506 billion fund's portfolio.

While some market observers believe that the traditional crypto four-year cycle is about to be broken, analysts told Decrypt this week that they believe some traders are still following the classic rulebook—and selling due to the expectation of falling prices ahead.

The introduction of Google's AI summaries has raised huge red flags for web publishers, however, as users are less likely to visit their sites if the information is extracted and provided up front. The issue is compounded by AI's tendency to hallucinate, and even provide dangerous answers based on flawed sources.

"The number of new packages that get published on a daily basis is posing a challenge for security organizations, and ML model-based detection is currently the best answer that the security industry can provide," ReversingLabs engineer Karlo Zanki said.
