Defiance and other firms already offer a number two times leveraged ETFs that are geared toward short-term investors, asking them to speculate on the one-day direction of certain stocks, many of them in the technology sector.

More advanced traders may be inclined to consider selling covered calls. Covered calls benefit from overbought, parabolic rallies—if the rally stalls, you keep the

premium; if price indeed explodes, your gains are capped but protected from a sudden selloff.

“Dollar dominance is going to be the opportunity of Ethereum,” he said, adding this will be because of “everything becoming...tokenized.”
