Catalyst windows can also distort price action. Listings and token unlocks may temporarily overwhelm shallow market depth, especially in illiquid altcoins. This can produce sharp “breaks” that often reverse once order flow normalizes. Research on market microstructure around launches and unlocks shows how depth, fragmentation and positioning can combine to create these head fakes.

Chen Zhi is the founder and chairman of Prince Holding Group, a multinational business conglomerate based in Cambodia. The Department of Justice has alleged that Prince Holding is at the center of a global crypto scam operation involving forced labor and billions of dollars in victims' losses.
