As the first successful application of blockchain technology, cryptocurrencies have gone through more than ten years of development. From the initial Bitcoin to the current wide variety of tokens, the cryptocurrency market has experienced multiple booms and busts. Nevertheless, the ideas of decentralization and disintermediation represented by cryptocurrencies are profoundly influencing the traditional financial system. More and more institutional investors are beginning to pay attention to and participate in the cryptocurrency market, and governments of various countries are also actively exploring regulatory frameworks for cryptocurrencies to promote their healthy development.
