Authority is the emergent product of differing capacities for violence among individuals and groups. This gradient of violence gives rise to coercion, where the possessors of violence impose rules on subjects. And code, while dictating internal rules within its own logic, has no monopoly on violence in the world writ large.

The move fits into a growing corporate trend of bringing Bitcoin onto balance sheets through structured vehicles funded primarily through convertible notes, following the digital asset treasury playbook pioneered by Strategy, formerly known as MicroStrategy.
