Looking ahead, Liu expects volatility to remain elevated as markets await clearer policy direction. "A more defined macro path or easing US political tension could restore confidence, reviving risk appetite and turning ETF flows back to positive," he said.

How the campaign works

In traditional markets, clearing and settlement are often invisible to end-users, but they're where the real leverage is. Tempo would give Stripe a chain purpose-built for predictable fees, deterministic settlement times, and merchant distribution that nobody else can match. This is 20 years of payment-processor muscle memory applied to crypto rails.

In Europe and the US, major fast-food chains like Subway and Burger King continue to accept crypto payments, often through third-party gift card services or payment processors. While not a direct, in-house integration for every location, it's a simple way for consumers to spend their Bitcoin.

This is because it may signal overcrowding in long positions, potentially leading to a reversal if retail traders start taking profits or getting liquidated.
