With Grok 4, you can automate the first round of filtering — for example, summarizing white papers, spotting tokenomics red flags and checking liquidity. By the time you get to manual research, you are already down to the 10% of projects that actually deserve your attention.

It comes as open interest on perps has spiked 2.35% to \$30 billion in the last two days, as traders begin to position ahead of this week's employment figures.

Code, in this construction, is not necessarily a removal of negative restraint but is instead just another instance of regulation, broadly construed. A restraint,

manifested differently, that poses the same questions as any other form of restraint.

The union criticized the creation, saying that it “has no life experience to draw from, no emotion.”

In a permissionless chain, the risks are technical and market-driven. In a corporate chain, the risks are regulatory and business-model-driven. Tempo might not rug you technically, but it could kill your yield with a policy update.

Triangle patterns form when price movements create converging trendlines, resulting in a triangular shape. The three main types are ascending (bullish), descending (bearish) and symmetrical (neutral).
