"BTC's appeal as a safe haven is not only becoming more visible but also more deeply rooted—growing at the same time that confidence in traditional institutions continues to erode," FRNT Financial Head of Data and Analytics Strah Savinja told Decrypt.

The crackdown comes after retail investors lost an estimated \$17 billion on digital-asset treasury trades, according to a recent 10X Research report.

"The number of new packages that get published on a daily basis is posing a challenge for security organizations, and ML model-based detection is currently the

best answer that the security industry can provide," ReversingLabs engineer Karlo Zanki said.
