With Google's new update, when a request to remove non-consensual deepfake websites found in a search is received, Google will also work to filter similar search results that include the name of the person being impersonated.

The firm also offers Bitcoin and XRP-themed credit cards, all of which offer up to 4% back on purchases in instant crypto rewards.

Crypto markets and stocks have in the past done well in a low interest rate environment. Experts previously told Decrypt that the price of BTC would benefit if lower interest rates.

“The shift is driven by the convenience and significant tax benefits offered by ETFs, as well as the ability for major investors to manage their wealth through existing financial advisers and access broader investment/lending services,” Hiesboeck said.

The ETH monthly futures premium compared to spot markets slipped to 4%, below the 5% neutral threshold. Traders’ sentiment had already been shaken by the flash crash on Oct. 10, and the last notable bullish phase was in early February. Ether traders appear increasingly doubtful about the strength of any lasting bullish momentum.

The company's current offerings include the Daily Target 2X Long MSTR ETF (MSTX) and Daily Target 2X Long HOOD (HOOX), which seek results that are two times the daily share price change of Strategy and Robinhood.
