Operationally, risks such as validator performance, slashing events and downtime persist. Balancing liquidity with staking lock-ups and ensuring fair, transparent distribution of rewards among shareholders adds further complexity to fund management.

“If you messed with the monetary side of the rules-based global order, the US would send the military over and kick your head in. That is a big part of why Saddam was invaded, a big part of what Gaddafi was doing.”

The first, as is highlighted in Craig's film, is that it is incredibly difficult to build code that is robust enough to regulate human behavior in the range of circumstances it is likely to encounter. This issue comes from a mismatch between the rigid logical nature of code and the fluidity of human behavior.
