The exponential moving averages, or EMAs, paint an even prettier picture. These weighted averages give more importance to recent price action, helping identify dynamic support and resistance. For BNB, the setup is textbook: the 50-day EMA rises beneath current price around \$1,050-\$1,070, providing a cushion for pullbacks. The 200-day EMA sits lower still, confirming the longer-term uptrend.

While some market observers believe that the traditional crypto four-year cycle is about to be broken, analysts told Decrypt this week that they believe some traders are still following the classic rulebook—and selling due to the expectation of falling prices ahead. That cohort may be partly accounting for crypto's weekly decline,

with Bitcoin dropping over 9%, Ethereum falling 6%, and XRP showing a 15% dive—with some altcoins down even worse. Crypto prices plunged last Friday following Presiden...

Decentralized applications (DApps) are changing the way we interact with the Internet. Unlike traditional applications, DApps run on blockchain networks, do not rely on centralized servers, and feature decentralization, openness, and immutability. Currently, DApps are mainly concentrated in games, finance, social media, and other fields, providing users with brand new experiences. Although the development of DApps still faces challenges such as user experience, performance, and scalability, with the continuous advancement of technology, we believe that DApps will become an important part of the future Internet.

Grayscale has played a central role in the institutionalization of crypto. Founded in 2013, it has grown into one of the world's largest digital asset investment platforms, managing over \$35 billion in assets. It has now launched staking-enabled products that bring blockchain yield mechanics into Wall Street's traditional framework.

The team promised that Ondo will do for securities what stablecoins have done for dollars, making the tokenized assets tradeable outside of typical market hours and available worldwide.

BlackRock has launched its first Bitcoin exchange-traded product for UK retail investors, opening institutional-grade crypto access to Britain's retail market amid volatile trading conditions.
