According to the CME FedWatch tool, the probability of a Federal Reserve interest rate cut now stands at 96.7% for a 25-basis-point reduction. A cut in interest rates generally signals more liquidity entering the system, reducing borrowing costs and supporting risk-on sentiment across asset classes, including cryptocurrencies like Bitcoin.

The campaign's gamified nature has also led to community engagement across social platforms, with participants sharing their progress, NFT achievements and referral milestones. This activity is generating continued interest in the campaign as it moves into its next phases.

Many countries previously shifted their debt issuance to short-term maturities, leading to a global increase in long-term government bond yields, Brooks noted in a subsequent tweet, “a move that may be coming back to haunt us.”

Decentralized applications (DApps) are changing the way we interact with the Internet. Unlike traditional applications, DApps run on blockchain networks, do not rely on centralized servers, and feature decentralization, openness, and immutability. Currently, DApps are mainly concentrated in games, finance, social media, and other fields, providing users with brand new experiences. Although the development of DApps still faces challenges such as user experience, performance, and scalability, with the continuous advancement of technology, we believe that DApps will become an important part of the future Internet.

Chainalysis attributed Russia’s surge in crypto adoption to two primary factors: a spike in large institutional transfers and the growing use of decentralized finance (DeFi).

Watch for spoofs, large bids or asks that vanish on contact, creating the illusion of support or resistance. Spoofing is unlawful in regulated futures markets, and similar patterns have been documented on crypto exchanges. Treat sudden order book shifts with caution.
