The New York Stock Exchange's parent — Intercontinental Exchange — also made a \$2 billion investment in Polymarket, marking the company's valuation up to \$9 billion amid increased competition with Kalshi, which also has a multibillion-dollar valuation.

This article discusses what crypto staking is, what has prevented greater institutional participation and how Grayscale has encouraged the institutionalization of crypto investment. It also highlights regulatory and market changes surrounding staking and explains how Grayscale's spot crypto ETPs deliver staking yields to investors. Finally, it outlines the risks associated with staking funds and shows how Grayscale's ETPs have shifted crypto from a price-tracking asset to an income-generating one.

The gold market extended Tuesday's massive correction, with \$2.5 trillion being erased from its market cap on Wednesday, according to the financial analysis publication, The Kobeissi Letter.
