These are the advocates now of a code-is-law ethos, those who think freedom from restraint will advantage them precisely because it is asymmetric. They disproportionately wish to pursue activities that society censures, so a less powerful social conscience disproportionately benefits them.

Trust companies, for example—which custody crypto assets—may not be considered legally eligible for “skinny” master accounts, given their current inability to receive deposits, Long warned.

FalconX and 21Shares did not immediately respond to Decrypt's request for further comment.

"I think that most fiat currencies, especially those with large debts, will have problems being effective storeholds of wealth and will go down in value relative to hard currencies," he said, pointing to parallels between the coming years and two periods in the 20th century.

The stablecoin has been criticized by the European Union for being used as a tool for sanction evasion by Russia. The US government has also linked A7A5 to Grinex, the successor of Garantex, which was allegedly involved in money laundering and ransomware attacks with \$100 million in transactions related to illicit activities.

The exhibition features "cutting-edge digital artists alongside additional physical works,encouraging guests to explore, pause and connect with the art beyond the dancefloor," the organizers said.
