Russia's volumes up almost 50% since last year

"We can build, or architect, or code cyberspace to protect values that we believe are fundamental. Or we can build, or architect, or code cyberspace to allow those values to disappear. There is no middle ground. There is no choice that does not include some kind of building. Code is never found; it is only ever made, and only ever made by us."

Major Asian stock exchanges are rejecting firms pivoting into digital-asset treasuries, a clampdown experts say is needed to prevent markets from being exposed to “severe volatility risks.”

Waller said updates on the potential implementation of his “skinny” master account plan will be coming soon, with the Fed conducting outreach to interested stakeholders.
