Comprehensive Guide to binance como retirar dinero

On Monday, Hyperliquid Improvement Proposal 3 (HIP-3) came into force, allowing permissionless, builder-deployed perpetual futures contract listings.

Hours after getting slapped, the Pump.fun streamers recorded an apology video... while thanking Martyn for pumping their bags.

But October—dubbed Uptober by traders—has started with a bang. Nine out of the past 10 years have been strong for the cryptocurrency.

Daily active addresses on BNB Chain hit an all-time high on Monday, as the network's native crypto token reached a new price record.

Cross-border payment is one of the important application scenarios of blockchain technology. The traditional cross-border payment process is complex, involving multiple intermediaries, with long settlement time and high fees. In contrast, cross-border payments based on blockchain technology can realize direct peer-to-peer transactions, greatly simplifying the process, shortening settlement time, and reducing costs. Currently, several countries and financial institutions have begun to try using blockchain technology for cross-border payments. With the continuous maturity of technology and the improvement of regulatory frameworks, blockchain cross-border payments are expected to become the mainstream cross-border payment method in the future.

Years before that in August 2021, DeVere Group CEO Nigel Green, "Ethereum's ascent to the top of the cryptoverse seems unstoppable."
