“This helps us understand friction points and opportunities, and keeps us close to the edge of what’s possible,” the announcement reads.

They won’t prioritize privacy features that could raise regulatory eyebrows, and they can’t move as fast in shipping novel DeFi primitives, as every new feature needs legal sign-off. They’ll always have to balance decentralization with shareholder value.

To that point, Dalio said that deregulation isn’t a threat to governments’ use of fiat currencies in stabilizing economies or facilitating international trade. It is rather

unhealthy debt levels, he said, that are eroding the status of currencies like the greenback across several sovereigns.
