They warned that if the shutdown continues, its impact could extend from liquidity to structural trust in the US system. "The market's next move may depend on whether the nation's political institutions can restore consensus amid deep division," they said.

American Bitcoin will soon go public. According to the Trumps, it plans to be "the world's largest and most efficient Bitcoin miner."

Despite the mixed technical setup, retail traders appeared to be betting aggressively on further upside. Data from trading resource Hyblock Capital

outlined Ether's True Retail Accounts (TRAs) long percentage has reached the 90th percentile, one of the highest levels across major crypto assets. Hyblock said,

"From what we've seen, audiences aren't interested in watching computer-generated content untethered from the human experience," they said.

Liquidity is typically thinnest during weekends and off-hours. Market makers widen spreads to manage risk, and a single headline can move prices beyond key levels before liquidity returns.

This suggests that a price rebound may lack the momentum derived from consistent buying pressure, potentially leading to a deeper pullback.
