In this scenario, BNB would trade sideways for weeks before attempting another leg higher. The conservative year-end target becomes \$900-1000 rather than \$2,000—still excellent 200% yearly returns.

The restrictions also limit the type of compensation or rewards offered to consumers to persuade them to use a particular exchange or service.

The U.S. government now possesses an additional \$14 billion more in Bitcoin. The only question is: What are they going to do with all that digital gold? On Tuesday, the Department of Justice announced it had successfully seized over \$14.4 billion

worth of Bitcoin from Chen Zhi, the head of a Cambodia-based business conglomerate alleged to be at the center of a global crypto scam operation. The seizure is, by far, the largest in DOJ history. Now, U.S. prosecutors have filed criminal wire fraud a...
