Comprehensive Guide to binance customer support us

Galaxy Digital reported strong third-quarter earnings, driven primarily by higher trading activity and continued expansion in asset management, signaling steady institutional interest in crypto-focused financial services.

Speaking at the National Association for Business Economics conference, Powell said the Fed may soon stop its “quantitative tightening” process, noting that reserves are “somewhat above the level” consistent with ample liquidity.

Published Thursday, the report combines analyses of regions previously examined separately, covering Central, Northern, and Western Europe, as well as Eastern

Europe as a whole.

Traders would consider this correction healthy, allowing the token to consolidate gains and work off overbought conditions, bringing RSI back to neutral 50-60 territory. If \$1,050 holds, bulls maintain control and the uptrend stays intact for another leg higher.
