OKLink is a professional-grade, multichain blockchain explorer developed under the OKG Technology Group. It supports major blockchains such as Ethereum and Bitcoin, offering robust tools for transaction tracking, stablecoin monitoring and onchain risk analysis. Known for its strong compliance and Anti-Money Laundering (AML) features, OKLink is widely used by analysts, compliance teams and institutions that require deeper blockchain visibility beyond basic transaction searches.

The crackdown comes after retail investors lost an estimated \$17 billion on digital-asset treasury trades, according to a recent 10X Research report.

The stimulus measures include subsidies for electricity and gas charges, as well as regional grants to ease price pressure and encourage small to medium-sized businesses to raise wages.
