If a developer deploys an immutable contract, then the moment an exploit is discovered, without a legal superstructure to support participants, the entire system will become unusable. And it is unrealistic to expect developers to develop perfect code. It is far easier and more effective to implement flexible rules that can be administered by humans (i.e., laws) than it is to imagine, beforehand, every possible risk scenario that could ever arise.

Overall, Galaxy had \$9 billion in assets under management by the end of the third quarter, as well as \$7 billion in “assets under stake,” which were earning blockchain rewards. The firm said its average loan book size increased to \$1.8 billion on increased client diversity.

The main goal of VCs like Paradigm is to "suck as much value as possible from the Ethereum and broader ecosystem," while their secondary goals include "progressing the systems towards rigorous decentralization," wrote Lubin in a Monday X post, adding that there is “no reason for concern.”
