South Korea's Financial Intelligence Unit has approved Binance's majority stake acquisition of GOPAX, ending a regulatory impasse that had stifled its return to the Korean market for over two years.

If a developer deploys an immutable contract, then the moment an exploit is discovered, without a legal superstructure to support participants, the entire system will become unusable. And it is unrealistic to expect developers to develop perfect code. It is far easier and more effective to implement flexible rules that can be administered by humans (i.e., laws) than it is to imagine, beforehand, every possible risk scenario that could ever arise.

Strategy stock (MSTR) gained 2% on Friday, ending the trading session at \$289.87. However, it has fallen 39% since its all-time high closing price of \$473.83 in November 2024, according to Google Finance.

Together, they account for about a quarter of the country's \$4.3 trillion (US\$2.8 trillion) superannuation pool, according to data released by the Australian Prudential Regulation Authority last week.

Meanwhile, an X user under the handle Boluson argued that most corporations don't need a blockchain; they are just feeling pressured to adopt the technology over fears of being left behind.

By using trusted custodians, a diversified network of validator partners and transparent reporting, Grayscale has established a secure and compliant way for investors to participate in staking. It has turned staking from a complex, retail-oriented process into a professional investment opportunity.
