The post has led to feverish speculation surrounding the Floki meme coin, with many hoping that history will repeat itself and that Musk will continue to post about Floki.

The comedian is far from striking a deal with the likes of HBO, but it might not be too long before Haines offers a closer look at what's coming. He plans on turning

behind-the-scenes content into a vlog.

The scale of the correction is highly unusual and in theory would only happen “once every 240,000 trading days,” Alexander Stahel, a resources investor in Switzerland, observed in a post on X on Tuesday.

The spot volume delta metric, an indicator that measures the net difference between buying and selling trade volumes, reveals that net spot buying on exchanges remains negative, despite the recent attempts at recovery.
