While some market observers believe that the traditional crypto four-year cycle is about to be broken, analysts told Decrypt this week that they believe some traders are still following the classic rulebook—and selling due to the expectation of falling prices ahead.

But branching out into AI data centers is difficult, requiring more complex heating, ventilation, and air conditioning systems than those for Bitcoin mining, experts have told Decrypt.

By using trusted custodians, a diversified network of validator partners and transparent reporting, Grayscale has established a secure and compliant way for investors to participate in staking. It has turned staking from a complex, retail-oriented process into a professional investment opportunity.

However, he emphasized that it is still a “working theory” and that he remains a Bitcoin bull.
