Bitcoin infrastructure company Babylon Labs claimed to have developed a system that enables native Bitcoin to be used as collateral for borrowing assets on Ethereum.

The deal gives Ripple infrastructure to manage digital assets held in corporate treasuries, including stablecoins and tokenized deposits, which can be used to generate yield for clients, according to a Thursday announcement.

Here are five common patterns every crypto investor, including beginners, should know:

"We have been reviewing the entire portfolio from first principals to evaluate AI suitability and have identified Georgia as a strategic region for both potential conversion as well as expansion," wrote Scott Garrison, chief development officer and executive vice president at ClearSpark, adding:

"In line with WNBA Arena Security Standards, any fan who intentionally throws an object onto the court will be immediately ejected and face a minimum one-year ban in addition to being subject to arrest and prosecution by local authorities," it said in a statement.
