Thomas previously led Saudi Arabia's multi-billion AI data center program as former president of AI Data centers at Saudi AI company Humain. Through his career, he created over \$12 billion worth of shareholder value across 19 ventures, according to the announcement.

The company's current offerings include the Daily Target 2X Long MSTR ETF (MSTX) and Daily Target 2X Long HOOD (HOOX), which seek results that are two times the daily share price change of Strategy and Robinhood.

Chart patterns are shapes formed by price movements that help traders anticipate future market trends. These patterns fall into two main categories: reversal patterns, which signal that a current trend may change direction, and continuation patterns, which suggest the trend will likely resume after a brief pause. They stem from market psychology, where emotions like fear, greed and uncertainty drive collective trading behavior and create recognizable shapes on charts.

He believes this outlook bodes well for a sustained rally through the year's end, noting that "historically, October through December are the most active and bullish months for Bitcoin."
