Meanwhile, Michael Saylor hinted on Sunday that Strategy may buy more Bitcoin after sharing a chart showing \$69 billion in BTC holdings. Even with equity pullbacks, DAT crypto reserves remain intact, signaling long-term conviction.

Analysts remain wary of digital assets' future price path as markets reckon with a re-escalation of the Trump administration's global trade war, inflation and economic worries, and other macroeconomic uncertainties. "It's likely too early to tell if this is the bottom though as wider markets are choppy, particularly gold," James Butterfill, global head of research at crypto asset manager CoinShares told Decrypt.

XRP is often positioned here because its consensus-based ledger and Ripple's infrastructure are designed for lower cost and faster settlement for cross-border transfers. There are businesses such as Mercury FX and Cuallix that have adopted or trialed XRP for such uses.

"No one should go into a pissing match with Jack when it comes to funding open-source Bitcoin development," Wertheimer said.

The company expects to raise about \$230.8 million, payable in Bitcoin or SolvBTC, with the transaction scheduled to close on Friday, pending customary conditions.

The team promised that Ondo will do for securities what stablecoins have done for dollars, making the tokenized assets tradeable outside of typical market hours and available worldwide.
