Ether options' 25-delta skew surged to 14% on Thursday, a level rarely sustained and often linked to periods of heightened fear. Traders are paying a premium for put (sell) options, signaling that market makers remain uneasy about downside

risks. Under normal market conditions, the skew typically fluctuates between -6% and +6%.

Major chain retailers like Home Depot, Lowe's and Ikea accept cryptocurrency in the form of Bitrefill and BitPay gift cards, so you can use ETH to finance your home renovation.

“‘Tilly Norwood’ is not an actor, it’s a character generated by a computer program that was trained on the work of countless professional performers—without permission or compensation,” SAG-AFTRA said.

If approved, the proposal will proceed through the Aave Request for Comment (ARFC) stage for community feedback, followed by a Snapshot vote and final onchain governance confirmation. Unlike short-term market interventions, the proposal aims to institutionalize buybacks as a recurring mechanism, essentially making the DAO an active capital allocator.
