The approval allows Binance to take majority control of GOPAX, restart operations in Korea, honor repayment pledges to users, and position itself to compete with dominant local exchanges.

Even convenience stores are in it. Sheetz accepts Bitcoin, Ether and a handful of other coins at checkout. And if you're more of an XRP loyalist, directories like Cryptwerk point you to smaller eateries happy to turn tokens into tacos or burgers.

At the network level, institutional staking could enhance security and protocol stability. However, it may spark concerns about centralization if large funds

dominate validator roles. This could affect yields and governance balance. Grayscale's staking-enabled ETPs will shape upcoming funds, influencing standards for transparency, risk disclosures, taxation and investor safeguards.

Similarly, the Coinbase app now ranks 29th in the US App Store within the finance category, a significant drop from its third-place position in January, according to data from The Block.

"We need VCs for now because they represent a comfortable bridge for the world's capital to flow into our ecosystem," wrote Lubin, adding:

However, the current crypto footprint through these funds remains small next to over A\$1 trillion managed in Australia's pension system, according to the country's tax office report released Wednesday.
