Comprehensive Guide to binance futures credits

retail investors are known for entering the market during periods of euphoria, typically after strong rallies or new all-time highs. Still, despite Bitcoin hitting multiple all-time highs in 2025, the general public's interest and retail activity continue to lag.

But CJ Burnett, chief revenue officer at Compass Mining, told Decrypt that the company believed that the environment was favorable for remaining focused on mining.

Retest and hold: False breaks often fail on the first retest. Treat any breakout or breakdown that hasn't been retested as suspect.

The clues lie in leverage and positioning. When funding rates in perpetual futures turn strongly positive or negative, it signals crowding on one side of the market. When open interest builds near key levels, it often sets the stage for squeezes in either direction.

Publicly traded media company Newsmax is creating a digital assets treasury centered on Bitcoin and President Donald Trump's meme coin, which trades as TRUMP on Solana.

Finally, enforce safety and governance. Given moderation issues and risks of single-source reliance, set a hard rule that no Grok-generated signal can directly trigger live trades without external verification. Multiple independent checks should always precede capital deployment.
