Part of this growth is being driven by improvements in underlying blockchain infrastructure, with some networks now processing over 3,400 transactions per second, a more than 100-fold increase in throughput over the past five years.

Users of prediction market Myriad, launched by Decrypt's parent company DASTAN, place a roughly 60% chance on Bitcoin's dominance surging to 64% instead of dropping down to 54%, down from 69% at the start of the month.

The referral system also proved to be a growth driver, with 25,212 new users brought into the Algorand ecosystem through invitations from friends. By the end of the week, 4,215 participants had successfully completed all the required quests and claimed their non-fungible token (NFT) badges.
