Android users beware: A newly discovered piece of malware is targeting smartphone crypto wallets. Uncovered by fraud prevention firm ThreatFabric, the “Crocodilus” mobile banking trojan employs tools including remote control, black screen overlays, and advanced data harvesting through accessibility logging to trick crypto holders into handing over their wallet seed phrase. The malware “is masquerading as crypto-related apps and involves specific social engineering techniques to make victims reve...

The repayment deadline was extended by a year to give creditors more time to complete claim procedures. With about \$3.9 billion in Bitcoin still in Mt. Gox-linked wallets, this Halloween may again spark concerns about possible sell pressure.

Before livestreaming was a native feature on the platform, a Miami dev called Mikol doused himself in isopropyl alcohol and had fireworks shot at him. He instantly went up in flames, dropping to the floor as his friends struggled to put the fire out. Mikol was then rushed to the hospital with third-degree burns across a large portion of his body.

The funds will support energy expansion, mining growth, and new high-performance computing projects, with the move building on earlier steps, the company said.

California state pension fund CalPERS recorded mixed reactions from board candidates on crypto investments during Wednesday's forum, despite the system holding shares in Bitcoin treasury company Strategy, previously known as MicroStrategy.

"The conventional wisdom was that the SEC was only going to allow 2X leverage going forward, but these filings suggest that it may be willing to allow more volatile products to hit the market," Roy wrote. "If they launch, these would be extremely risky funds designed for the most aggressive short-term traders."
