“Evaluate how likely the current X-driven pump for [TICKER] is organic. Cross-reference recent GitHub commits, official releases, known vesting schedules and the largest onchain transfers in the past 72 hours. Provide a confidence score 0-10 and list five specific verification links.”

The company's board of directors approved the plan, which will see it acquire up to \$5 million of the two assets in total over the next year, according to a company announcement on Thursday.

The deal is expected to generate a total cumulative revenue of over \$3.5 billion for the world's largest Bitcoin mining firm, during the initial 12-year terms of the

contracts, Cointelegraph reported.

Catching a coin's name trending on X or in a Telegram chat isn't enough to justify putting capital at risk. Social buzz moves fast, and most spikes fade before price action catches up, or worse, they might be the result of coordinated shilling. That's why the next step is to turn raw noise into structured signals you can actually rank and compare.

The open banking framework, first proposed in 2022 under former U.S. President Joe Biden and finalized on October 22, 2024, allows consumers to securely share financial data with third-party apps through APIs (application programming interfaces).
