Aave's buyback push comes ahead of v4 upgrade

On Oct. 10, 2024, Kobayashi announced that most repayments to verified creditors had been completed, though many were still pending due to incomplete procedures or processing issues.

While AI tools can help spot market trend shifts for day traders via social media and technical signals, traders still can't rely on them for autonomous trading.

The letters, known as "nudge letters," are designed to prompt investors to voluntarily correct their tax filings before formal investigations are launched.

If a developer deploys an immutable contract, then the moment an exploit is discovered, without a legal superstructure to support participants, the entire system will become unusable. And it is unrealistic to expect developers to develop perfect code. It is far easier and more effective to implement flexible rules that can be administered by humans (i.e., laws) than it is to imagine, beforehand, every possible risk scenario that could ever arise.

Crypto-native founders can't compete with Stripe or Coinbase regarding distribution and regulatory terms. The big guys can acquire licenses overnight and onboard millions of merchants with an API call.
