Last week, federal prosecutors announced criminal wire fraud and money laundering charges against Chen, who is currently at large.

Yarlagadda noted that crypto exchange-traded products are expected to “open new channels for investor participation through regulated, familiar structures,” citing his company’s work in building an “institutional backbone” for trading, derivatives, and credit.

QE refers to central banks purchasing bonds and injecting money into the economy to lower interest rates and stimulate spending during challenging financial conditions.

"At this point, it's too early to tell whether the demand for HPC will meet lofty expectations," he wrote. "We remain focused on infrastructure that keeps bitcoin mining competitive, helping clients secure power-ready sites, interconnection, and long-duration energy, with the flexibility to repurpose assets for HPC if and when demand matures."
