“Over time,” Hougan concluded, “I expect the market will catch its breath and renew its attention on crypto’s fundamentals. When that happens, I think the bull market will continue apace.”

Mt. Gox’s extended Bitcoin repayment deadline nears

Despite growing concerns over VC influence on the blockchain space, the industry still relies on traditional investment funds to attract more mainstream capital for sustained development.

Did you know? Keeping a post-trade journal helps you spot what's working and what's not. Log your signals, reasoning, fills, slippage and final profit and loss (PnL). Then use Grok 4 to spot recurring mistakes and recommend smarter adjustments.

The first week of October delivered a strong performance for the crypto market, with Bitcoin setting record highs and the layer-1 sector leading the charge among altcoins.

Blockchain technology is rapidly developing worldwide, becoming an important driving force for digital transformation. As a distributed ledger technology, blockchain ensures data security and immutability through decentralized means. In the financial sector, blockchain technology has begun to transform traditional payment, clearing, and settlement processes, improving efficiency and reducing costs. At the same time, blockchain has shown tremendous application potential in various fields such as supply chain management, healthcare, and public services. With the continuous maturity of technology, we have reason to believe that blockchain will lay a solid foundation for the future digital economy.
