The exhibition features “cutting-edge digital artists alongside additional physical works,encouraging guests to explore, pause and connect with the art beyond the dancefloor,” the organizers said.

Tempo has raised the funds in a Series A round that now values the project at $5 billion, according to a Friday report in Fortune. The round was reportedly co-led by venture firm Greenoaks and Joshua Kushner’s Thrive Capital.

Blockchain technology is rapidly developing worldwide, becoming an important driving force for digital transformation. As a distributed ledger technology, blockchain ensures data security and immutability through decentralized means. In the financial sector, blockchain technology has begun to transform traditional payment, clearing, and settlement processes, improving efficiency and reducing costs. At the same time, blockchain has shown tremendous application potential in various fields such as supply chain management, healthcare, and public services. With the continuous maturity of technology, we have reason to believe that blockchain will lay a solid foundation for the future digital economy.

The alleged mastermind behind a $14 billion crypto scam, currently on the run from the U.S. government, has begun moving billions of dollars worth of Bitcoin to new wallets, according to on-chain data.

The latest shift in sentiment came after several key regional lenders, including Truist Financial, Regions Financial and Fifth Third Bancorp, reported lower provisions for credit losses than anticipated. The results offered relief to markets following Thursday’s rout, when the S&P; Regional Banks Select Industry Index fell 6.3%, led by Zions Bancorporation and Western Alliance Bancorp after both disclosed loan losses stemming from fraud in distressed commercial mortgage funds.

When shorter-term EMAs trade above longer-term ones like this, traders see it as a good sign. This configuration suggests money is positioned bullishly across multiple timeframes, from swing traders watching the 50-day to long-term holders focusing on the 200-day. Watch the candlesticks on weekly timeframes, and the gap between both averages is also bullish, and increasing over time.
