Grok used these insights to flip its previous short position into a long investment, resulting in a 500% portfolio gain within the first day of the competition, said Jaz Azhang, founder and CEO of AI company Stealth, in an Oct. 11 X post.

As lawmakers propose broader financial regulation, industry groups are increasing their policy engagement.

Hackers will take control of a legitimate website address through a Loader Script and embed JavaScript code into the website, triggering a separate malicious code package in a smart contract designed to steal funds and data once the user interacts with the compromised site.

How has it worked out? During the late-2024-to-mid-2025 rally, media estimates pointed to unrealized gains of \$300 million by December 2024, rising to portfolio values north of \$700 million months later, implying hundreds of millions in profit at peak. Figures move with price, but the pattern was clear in that upswing: Disciplined buying built a meaningful position.
