Buterin also praised Nailwal's personal efforts with CryptoRelief, which has funded biomedical infrastructure and research in India.

Since its debut, the group has focused on shock value and provocation to market the token.

The rise of NFTs (Non-Fungible Tokens) has brought revolutionary changes to digital content creation and trading. Based on blockchain technology, NFTs ensure

the uniqueness and immutability of digital assets, solving the problem of digital content being easily copied. NFTs have a very wide range of application scenarios, including digital art, game items, virtual real estate, music works, etc. The rapid development of the NFT market has attracted the participation of many artists, collectors, and investors, and has also provided creators with new monetization channels. Although there are risks of speculation and bubbles in the NFT market, in the long run, NFTs will inject new vitality into the development of the digital economy.

Senator Pete Ricketts, who supports the bill, said, "After more than 50 years of inflation, the Bank Secrecy Act's reporting thresholds are badly outdated. They must be modernized."

A repeatable pre-screen process forces discipline: You filter out hype-only tokens, highlight projects with verifiable fundamentals and cut down the time wasted chasing every rumor.
