However—and this is crucial—ADX measures strength, not sustainability. A strong reading can persist right until the moment a trend exhausts and reverses, some random whale dumps the coin, or a FUD episode triggers a flash crash. It's like a speedometer showing you're going fast without telling you how much fuel remains.

DeepSearch helps you go from a noisy tweet storm to a consolidated set of primary documents: white papers, token contracts and press releases.

With Grok 4, you can automate the first round of filtering — for example, summarizing white papers, spotting tokenomics red flags and checking liquidity. By the time you get to manual research, you are already down to the 10% of projects

that actually deserve your attention.

"The tax rules surrounding crypto are quite complex and there's now a volume of people who are trading in crypto and not understanding that even if they move from one coin to another it triggers capital gains tax," Neela Chauhan, a partner at UHY Hacker Young, which submitted the FOI request, told the FT.

Nasdaq-listed Bitcoin mining company CleanSpark's shares soared over 13% on Monday, after the company announced a strategic expansion into artificial intelligence.

The performance of some of these AI models could also be improved with the right prompt, particularly for ChatGPT and Google's Gemini, according to strategic adviser and former quantitative trader, Kasper Vandeloock.
