Comprehensive Guide to binance margin trading tutorial

"BTC's appeal as a safe haven is not only becoming more visible but also more deeply rooted—growing at the same time that confidence in traditional institutions continues to erode," FRNT Financial Head of Data and Analytics Strah Savinja told Decrypt.

In mid-2024, Bitcoin was in a far stronger position than during the Tokyo Whale era, still riding the momentum of the first batch of US spot Bitcoin exchange-traded funds. It was the middle of a bull rally that would eventually send Bitcoin past \$100,000 in December 2024.

However, the current crypto footprint through these funds remains small next to over A\$1 trillion managed in Australia's pension system, according to the country's tax office report released Wednesday.

Making mining "unviable"

"Summarize the white paper for [TICKER] into 8 bullet points: use case, consensus, issuance schedule, vesting, token utility, known audits, core contributors, unresolved issues."

Liquidity is typically thinnest during weekends and off-hours. Market makers widen spreads to manage risk, and a single headline can move prices beyond key levels before liquidity returns.
