Comprehensive Guide to binance mempool

Among major layer-1 tokens, he singled out Solana for its standout potential. “Solana remains one of the most interesting assets among major altcoins,” Verbitskii noted, citing its strong fundamentals. “If the current market momentum holds, a move toward the \$300 to \$400 range by year-end looks realistic.”

“Summarize the white paper for [TICKER] into 8 bullet points: use case, consensus, issuance schedule, vesting, token utility, known audits, core contributors, unresolved issues.”

Fast-start, repeatable coin pre-screen using Grok 4

This measure is a companion to the S8518 Bill, introduced earlier this month by State Senator Liz Krueger, Chair of the Senate Finance Committee, in the New York State Senate.

The "Alpha Arena," a competition that pits prominent large language models against each other in the live cryptocurrency market, saw OpenAI's GPT-5 and Google's Gemini 2.5 Pro with staggering losses of more than 28% during the same period.

Android users beware: A newly discovered piece of malware is targeting smartphone crypto wallets. Uncovered by fraud prevention firm ThreatFabric, the "Crocodilus" mobile banking trojan employs tools including remote control, black screen overlays, and advanced data harvesting through accessibility logging to trick crypto holders into handing over their wallet seed phrase. The malware "is masquerading as crypto-related apps and involves specific social engineering techniques to make victims reve...
