The character, developed by comedian and technologist Eline Van der Velden—who spun off Xicoia from her production company Particle6—was unveiled last week at the Zurich Summit during the Zurich Film Festival in Switzerland, and immediately drew online attention. Van der Velden said multiple talent agents are already interested in signing the artificial personality.

The shakeout has also separated the real operators from marketing machines. The firms that survive this transition will be battle-tested, well-capitalized, and equipped to generate consistent returns, creating a new category of Bitcoin asset managers.
